-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Request for Continued Examination

1. The request filed on 8/4/2004 for a Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/930,717 is acceptable and a CPA has been established. An action on the CPA is attached.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 31-36 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by SCHNEIER ET AL (US 5871398).

SCHNEIER ET AL discloses a method comprising entering a request by a player for an instant lottery ticket(s), transmitting that request via the players remote gaming computer to a central processor which then determines the outcome (in the form of instant lottery tickets) and transmits the outcome to the players remote gaming computer.

The claimed “parameter for revealing lottery game outcomes” and “preferences” is being read on the payment for each lottery ticket in the invention of SCHNEIER ET AL.

Art Unit: 3721

Regarding claim 35, the claimed "predetermined time" is being read on the inherent time required for sequential tickets to be sent, as determined by the clock speed of the computer server in the invention of SCHNEIER ET AL.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 37 is rejected under 35 U.S.C. 103(a) as being unpatentable over SCHNEIER ET AL.

SCHNEIER ET AL discloses a method, as described above.

SCHNEIER ET AL does not specifically disclose transmitting the lottery tickets on a schedule. However, it is well known in the art, as well as everyday life, to process computerized requests in groups and at scheduled times. It would have been obvious to one of ordinary skill in the art at the time the invention was made to process and deliver the lottery ticket requests in the invention of SCHNEIER ET AL in order to more efficiently use the central computer's resources.
